

Empathy Map Canvas

Date: 11 June 2026

Project Name: E-commerce Application

Empathize & Discover

User Persona: "The Convenience-Seeking Shopper"

Think & Feel

- *Think:* "I hope this site is secure with my credit card information."
- *Think:* "I need to find this item quickly without clicking through 10 pages."
- *Feel:* Anxious about hidden shipping fees at checkout.
- *Feel:* Relieved when the product has clear, high-quality images and good reviews.

Hear

- "You should check out this new store, they deliver fast."
- "Make sure you read the reviews before you buy!"
- "Is the payment gateway secure?"

See

- Competitor sites with cluttered UI.
- Targeted ads for products they searched for.
- Clean, modern, and mobile-friendly interfaces on leading platforms.

Say & Do

- *Say:* "I'll just add this to my cart and buy it later on my laptop."
- *Say:* "I can't find the category I'm looking for."
- *Do:* Frequently abandons cart if the checkout process requires too many steps.
- *Do:* Filters products by price and top ratings.

Pain

- Slow loading times.
- Losing cart items when session expires.
- Complicated return or order tracking processes.

Gain

- Time saved through quick checkout.

- Peace of mind with secure payments (Payment Gateway (Planned)).
- Satisfaction from finding exactly what they want via robust search and filtering.
