

VIP C2 PROGRAMME — FULL STACK DEVELOPMENT WITH
MERN

User Acceptance Testing (UAT)

ShopEZ — MERN Stack E-commerce Application

Phase: Project Development Phase

Document Version: 1.1

Date: 18th of june, 2026

Prepared by: V S S S Manikanta

Classification: Project Documentation — For Academic Submission

User Acceptance Testing (UAT)

1. Introduction

This document defines the UAT strategy, process, and test cases for the ShopEZ platform. UAT is the final validation phase confirming that the delivered system meets business requirements and is ready for production release.

Live Application: <https://e-commerce-application-neon-five.vercel.app/>

Test Environment: Chrome v120+ / Edge v120+ (desktop and mobile viewports)

2. UAT Process Flow

FIGURE 10.1 — UAT PROCESS FLOWCHART

3. Test Credentials

Role	Email	Password
Administrator	admin@shopez.com	adminpassword123
Customer	test@email.com	password123

4. UAT Test Cases

4.1 Authentication Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-001	New User Registration	1. Go to /register. 2. Enter valid name, email, password. 3. Submit.	Account created; redirected to dashboard; toast shown.	☐ Pass / Fail
UAT-002	Duplicate Email Rejection	1. Register with an already-used email. 2. Submit.	Error: "User already exists." Registration prevented.	☐ Pass / Fail
UAT-003	Valid User Login	1. Go to /login. 2. Enter valid credentials. 3. Submit.	JWT set; redirected; Navbar shows user name.	☐ Pass / Fail
UAT-004	Invalid Credentials Rejection	1. Enter wrong password. 2. Submit.	HTTP 401; error: "Invalid email or password."	☐ Pass / Fail

4.2 Product Discovery Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-005	Keyword Search	1. Enter "Shirt" in search bar. 2. Press Enter.	Only products containing "Shirt" in name/description displayed.	☐ Pass / Fail
UAT-006	Category & Price Filter	1. Select Category = "Electronics". 2. Set Price = ₹500–₹5,000.	Only Electronics in the price range displayed.	☐ Pass / Fail
UAT-007	Sort Price Ascending	1. Select Sort = "Price: Low to High".	Products re-ordered with lowest price first.	☐ Pass / Fail

4.3 Shopping Cart Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-008	Add to Cart	1. Open product page. 2. Select qty=2. 3. Click "Add to Cart".	Cart badge increments; cart shows item with correct qty and total.	☐ Pass / Fail
UAT-009	Update Cart Quantity	1. Open Cart. 2. Change qty of an item.	Subtotal and qty update in real time without page reload.	☐ Pass / Fail
UAT-010	Remove Item from Cart	1. Open Cart. 2. Click "Remove".	Item removed; total recalculated; empty cart message if no items remain.	☐ Pass / Fail

4.4 Checkout & Payment Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-011	Full Checkout Flow	1. Add item. 2. Checkout. 3. Enter shipping. 4. Enter test card 4242 4242 4242 4242 . 5. Place order.	Order created; stock deducted; confirmation page shown; order in history.	☐ Pass / Fail
UAT-012	Payment Failure Handling	1. Enter Stripe declined card 4000 0000 0000 9995 at payment step.	Error shown; order NOT created; stock NOT deducted.	☐ Pass / Fail

4.5 Admin Operations Module

Test ID	Scenario	Steps	Expected Result	Status
UAT-013	Admin Product Creation	1. Log in as Admin. 2. Admin → Products → "Create". 3. Fill fields & upload image. 4. Submit.	Product visible in public catalogue; image served from Cloudinary CDN.	☐ Pass / Fail
UAT-014	Admin Product Update	1. Open existing product in Admin. 2. Edit price. 3. Save.	Updated price reflected on public product page.	☐ Pass / Fail
UAT-015	Admin Order Status Update	1. Admin → Orders. 2. Change order status to "Shipped".	Status update reflected in customer's order history.	☐ Pass / Fail
UAT-016	Unauthorised Admin Access	1. Log in as Customer. 2. Navigate to /admin directly.	Access denied; customer redirected with appropriate error message.	☐ Pass / Fail

5. Results Summary

Module	Total Tests	Passed	Failed	Pass Rate
Authentication	4			
Product Discovery	3			
Shopping Cart	3			
Checkout & Payment	2			
Admin Operations	4			
Total	16			

6. UAT Sign-Off

Role	Name	Signature	Date
Development Lead			
QA Reviewer			
Product Owner / Stakeholder			

We confirm that the ShopEZ application has been tested against all defined User Acceptance criteria and is approved for production release.
